SUPPORT READY

■ WHY BEEF STATION

Beef Station needs a reliable digital backbone for orders, kitchen flow, inventory, CRM, delivery, and reporting — whether as a full platform or as a modern layer integrated with systems already in place. This proposal presents both paths clearly so you can choose what fits your operation today.

Executive Summary

Thank you for the opportunity to present our restaurant technology proposal. Below are two commercial paths — both cloud-based, mobile-ready, and built for single or multi-branch operations.

Our platform unifies order processing, kitchen operations, inventory, CRM, financial reporting, and delivery management into one easy-to-use system — with dedicated customer and driver mobile applications.

CHOOSE YOUR PATH

OPTION A — FULL PLATFORM

USD 14,119 one-time

Complete Restaurant & Butcher Management System: Web Admin + Customer App + Driver App, with inventory, finance, BI, and 10 users included.

Perpetual license

10 users

Support \$450/mo

OPTION B — INTEGRATION

USD 6,827 one-time

Web + Customer App + Driver App integrated with your current system — focused on storefront, orders, KDS, CRM, delivery, and administration.

Perpetual license

\$50 / user

Support \$250/mo

CAPABILITY SNAPSHOT

CAPABILITY	OPTION A	OPTION B
Web Administration Portal	● Full	● Core
Customer App (iOS & Android)	●	●
Driver App	●	●
Kitchen Display System	●	●
Tables / Floor Plan / Reservations	●	●
Inventory, Recipes, Procurement, Barcode	●	—
Finance, Cost Control, Profit Analysis, BI	●	Invoices
Integration with current system	N/A	●
Included administrator users	10	As licensed
Monthly technical support	USD 450	USD 250

Option A — Full Platform

Complete Restaurant & Butcher Management System for end-to-end operations — from kitchen to customer wallet, inventory to profit analysis.

01 · OPERATIONS

Dashboard · Orders · Kitchen Display System · Tables · Floor Plan Designer · Reservations · Cart Center · Shifts

02 · SALES & CRM

Customers · CRM · Delivery · Wallet

03 · INVENTORY

Menu Items · Categories · Inventory · Stock Movements · Recipe Mapping · Procurement · Suppliers · Barcode

04 · FINANCIAL & INTELLIGENCE

Finance · Cost Control · Invoices · Profit Analysis · Reports · Menu Analytics · Demand Prediction · Business Intelligence Dashboard

05 · ADMINISTRATION

Users · Roles & Permissions · Home Banners · Asset Logs · Settings · Audit Logs

MOBILE APPLICATIONS

CUSTOMER APP · IOS & ANDROID

- Registration, Login, Profile
- Menu, Search, Favorites
- Cart, Checkout, Order History
- Live Tracking & Notifications
- Loyalty, Reviews

DRIVER APP

- Login & Shift Management
- Assigned Deliveries
- GPS Navigation
- Delivery Status Updates
- Customer Contact & History

KEY FEATURES

- Multi-Branch
- Real-Time Dashboard
- KDS
- Inventory & Recipes
- Procurement
- Barcode
- CRM
- Delivery
- Cost Control
- Sales Analytics
- Roles & Audit
- Reservations

Option B — Integration Layer

Website and mobile applications integrated with your current system — modern customer experience and operations tools without replacing your full stack.

01 · OPERATIONS

Dashboard · Orders · Kitchen Display System · Tables · Floor Plan Designer · Reservations · Cart Center · Shifts

02 · SALES & CRM

Customers · CRM · Delivery · Wallet

03 · CATALOG & BILLING

Menu Items · Categories · Invoices

04 · ADMINISTRATION

Users · Roles & Permissions · Home Banners · Asset Logs · Settings

05 · INTEGRATION

Web + Customer Mobile App + Driver Mobile App connected to Beef Station's current system for synchronized operations and order flow.

MOBILE APPLICATIONS

CUSTOMER APP · IOS & ANDROID

- Registration, Login, Profile
- Menu, Search, Favorites
- Cart, Checkout, Order History
- Live Tracking & Notifications
- Loyalty, Reviews

DRIVER APP

- Login & Assigned Deliveries
- GPS Navigation
- Delivery Status Updates
- Customer Contact
- Delivery History

KEY FEATURES

- Multi-Branch
- Real-Time Dashboard
- KDS
- CRM
- Delivery
- Roles & Permissions
- Reservations
- Table Management
- BI Dashboard
- System Integration

Option B is ideal when Beef Station wants a polished digital storefront and delivery stack while retaining existing operational systems as the system of record.

Implementation Timeline

Same delivery rhythm for both options — focused, practical, and ready for go-live.

01 Install & Configure 2 Business Days	02 Data Setup 3 Business Days	03 User Training 2 Business Days	04 Test & Go-Live 3 Business Days
--	---	--	---

Total estimated delivery window: **10 business days** from project kickoff (subject to client readiness and data availability).

LICENSING

OPTION A

- One-time perpetual software license
- Includes 10 users
- Additional users: USD 50 each
- Unlimited customers, orders & menu items

OPTION B

- One-time perpetual software license
- User licenses: USD 50 each
- Unlimited customers, orders & menu items
- Integrated with current system

TECHNICAL SUPPORT

Software updates, bug fixes, performance optimization, security updates, database maintenance, system monitoring, and technical assistance.

OPTION A SUPPORT

USD 450 / month

OPTION B SUPPORT

USD 250 / month

All prices exclude applicable taxes.

Commercial Proposal

Clear pricing for both paths. Select the option that matches Beef Station's roadmap.
